THE DEPARTMENT OF LITERATURE AND DRAMATIC ART

DRAMATIC ART

EXPERIENCE indicates that nothing in all our work so quickly develops ease, naturalness, spontaneity, imagination, clear enunciation, and interpretative power, and so effectually banishes timidity, affectation, and self-consciousness, as training in Dramatic Art. Therefore, while this department may be used as a preparation for the stage, that is not its only purpose. Classes in Dramatic Art are under the direction of Mr. Charles Sparrow.

VOICE CULTURE

THE VOICE, the greatest instrument of expression, is generally the most neglected. Correct breathing is fundamental, whether for speech or song. Our method places all activity at the diaphragm and leaves the throat passive and relaxed. No one who has mastered this method will have speaker's sore throat. After technical drill, voice placing, vocal process in exercise, the voice becomes responsive to feeling, and timbre (tone color) is the result.

STUDIO RECITAL

THESE RECITALS are given in the Recital Hall of the School, under the direction of the Principal. During the School year, ten Public and twenty working recitals will be given. The attention of students of Expression or of Music, preparing for the professional platform is especially directed to this class. It offers them an opportunity of receiving personal criticism from the Principal on platform deportment, the Public Recitals in particular securing the conditions of actual professional performances.

PUBLIC SPEAKERS' CLASS

THE WORK in this class, under the direction of Mr. Charles Sparrow, is devoted principally to:

1. Phonetics.
2. The Training of the Voice.
3. Melody in Public Speaking.
4. Platform and Drawing-room Deportment.
5. Reading.

CORRECTIVE WORK

STAMMERING, stuttering and other impediments of speech are corrected, and constrictions of the throat and tongue relieved, by scientific methods. Distinguished physicians have expressed satisfaction with the results attained.

THE DEPARTMENT OF PHYSICAL EDUCATION

THE AIM OF THIS DEPARTMENT is to provide young women with a training, both in the Theory and Practice of Physical Education, that will enable them to take advantage of the opportunities offered in the ever-increasing demand for thoroughly qualified teachers.

HISTORY OF PHYSICAL EDUCATION (12 hours)

THEORY AND PRACTICE OF GAMES (48 hours)—This course includes a study of child psychology and the various "Theories of Play" to aid the student in determining games suitable for all ages. Practical material presented includes games, ranging from singing games to those more highly organized; all are discussed and classified according to their value for different age groups.

PRACTICE TEACHING (72 hours)—In addition to the regular periods of practice teaching, the students of the Senior year are advised to take charge of classes in Settlements, Churches, etc. Such work is partly supervised by the Department.
